Preferred Locations: Chennai, Bangalore (Bengaluru)

## PROFESSIONAL SUMMARY

React.js and MERN Stack Developer with 1+ year of hands-on experience across a full-time Software Engineer role and a React.js internship. Builds responsive, scalable web applications with React.js, React Hooks, JavaScript (ES6+), HTML5 and CSS3. Creates reusable UI components with Material UI (MUI), manages application state with Redux Toolkit and integrates REST APIs. Builds full-stack features with Node.js, Express.js, MongoDB and PostgreSQL, including JWT authentication, role-based access control (RBAC) and protected routes. Working knowledge of TypeScript. Seeking React.js Developer, Frontend Developer, MERN Stack Developer or Full Stack Developer roles in Chennai or Bangalore.

## TECHNICAL SKILLS

**Frontend:** React.js, React Hooks, React Router, Redux, Redux Toolkit, Material UI (MUI), Responsive Web Design, Reusable UI Components
**Programming & Markup:** JavaScript (ES6+), TypeScript, HTML5, CSS3
**Backend:** Node.js, Express.js
**Databases:** MongoDB, PostgreSQL (SQL)
**APIs & Security:** REST APIs, API Integration, JWT Authentication, Role-Based Access Control (RBAC), Protected Routes
**Tools:** Git, GitHub, Postman, VS Code
**Soft Skills:** Problem Solving, Logical Thinking, Team Collaboration

## WORK EXPERIENCE

### Software Engineer / React Developer | QuikOne

*Jan 2026 – Present | Chennai, Tamil Nadu, India | On-site*

- Build responsive, scalable web applications using React.js, JavaScript (ES6+), HTML5 and CSS3.
- Create reusable UI components with Material UI (MUI) to deliver consistent, user-friendly interfaces.
- Integrate REST APIs to connect React.js front-end features with back-end services.
- Collaborate within the development team to build and deliver React.js front-end features.

### React JS Developer Intern | Smackcoders

*Apr 2025 – Oct 2025 | Tirunelveli, Tamil Nadu, India | Hybrid*

- Developed responsive web applications using React.js, JavaScript (ES6+), HTML5 and CSS3.
- Designed PostgreSQL database solutions and integrated REST APIs for reliable data communication.
- Collaborated on e-commerce, student management and chatbot applications, focusing on clean, scalable code and application performance.

## PROJECTS

**MindChampS LMS (Learning Management System)** | *React.js, React Router, Redux Toolkit, Node.js, Express.js, MongoDB*

- Built a full-stack Learning Management System to manage students, instructors, surveys, schedules and reports.
- Implemented student and instructor management, timetable scheduling, surveys and feedback, and a reports dashboard.
- Added role-based authentication and role-based access control (RBAC) with protected routes using React Router.
- Built a responsive UI with React Hooks, with application state managed in Redux Toolkit.

**Chatbot Application** | *React.js, TypeScript, Material UI, JWT*

- Built a responsive chatbot UI with role-based message alignment and real-time interaction.
- Integrated a backend with session-based chat history and JWT authentication.

**Timesheet Management System** | *React.js, Node.js, Express.js, PostgreSQL*

- Developed a web application to track employee working hours and attendance.
- Implemented timesheet management, employee and instructor tracking, schedule-based entries, reports and status tracking, and an approval workflow.

## EDUCATION

**Bachelor of Engineering (B.E.), Computer Science**
PET Engineering College, Tirunelveli, Tamil Nadu | 2021 – 2025 | CGPA: 8/10

## LANGUAGES

English, Tamil
